

Friends of the Blue Hills

Trail Volunteer Work Report

Work date (mm/dd/yy): 2/15/09

Report date: 2/16/09

Your name: Bob Flagg

List Volunteers working with you:

Robert Romeri, Caleb Blankenship, Joe Woodman, Bob Mazairz

Trail Name: Bouncing Brook Path

Section Name/Description:

70 feet from the intersection with Laurel Path

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Removed blockage in stream below culvert and cleared downed branches from the length of the streams below the culvert.

Total Hours (# of people x hours worked): 5.00

Work Remaining:

Need to clear ditch on upside of culvert to allow better flow of water. Also work on the side ditches. Need to improve waterbar that is on location. It presently does not allow water to flow from the ditch across the trail except at higher water. This is seriously eroding the trail and undermining the waterbar. The side dirtch past the waterbar should be ingnored as the water will flow along the waterbar and off the trail.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
